

ISO EXTENDED TOP APERTURE Type BLR 263/BLR 430 For Fixed or Folding End Flatrack

These products are made from special steel designed for low temperature working at -40°C as standard.

Type BLR 263

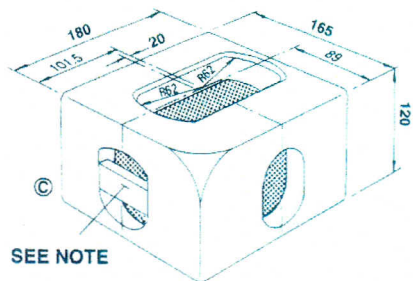

WEIGHT: 10.6 kg
23.3 lbs

RH as drawn LH opposite

- Classification Society approved
- Extra length top aperture
BLR 263 - ISO + 10mm = 134mm
BLR 430 - ISO + 20mm = 144mm

Offers the user the following important advantages:

- Longer aperture allows quick spreader location and helps to prevent damage.
- **NOTE**
End aperture must be blanked off prior to container going into service, to prevent 'hook lifting'. (Ref. ISO1496-5)

Type BLR 430

WEIGHT: 11.1 kg
24.4 lbs
